

IN-OFFICE HAND SURGERY

Avoid hospital / ASC facility fees with office-based procedures.

Transparent package pricing

Surgery is performed under local anesthesia using Wide Awake VR (WAVR), medically proven patient experience technology.

WHO THIS IS FOR

- Patients with high deductibles / HSA
- Self-pay patients seeking transparent costs
- Patients who want efficient, office-based care
- Common hand conditions treated without OR fees

WHAT YOU GET

- Office facility included (no hospital bill)
- Surgeon-performed care with modern techniques
- Eat before surgery, take your meds, drive after
- No need to bring family
- Inclusive post-operative care
